Examples of Work

Motili contractor portal contractors.motili.com

Professional services scheduling

The Motili contractor portal provides a comprehensive platform for managing professional services scheduling. It includes features for job completion, bidding, preferred pickup locations, and coverage area management.

Job Management: The portal allows contractors to manage their completed jobs. A screenshot shows a job entry for "Job - 19325" with details like Type (Diagnostic), Category (Water Heater), Priority (Routine 48 Hour Response), Status (Accepted), and Service Amount (\$65.00). It also includes sections for Bid Details, Property Details, and Attachments.

Bidding: Contractors can view and manage bids submitted by clients. A screenshot shows a dashboard for "Samples HVAC Co., Inc." with sections for Manage Jobs, View Bids, and Chat.

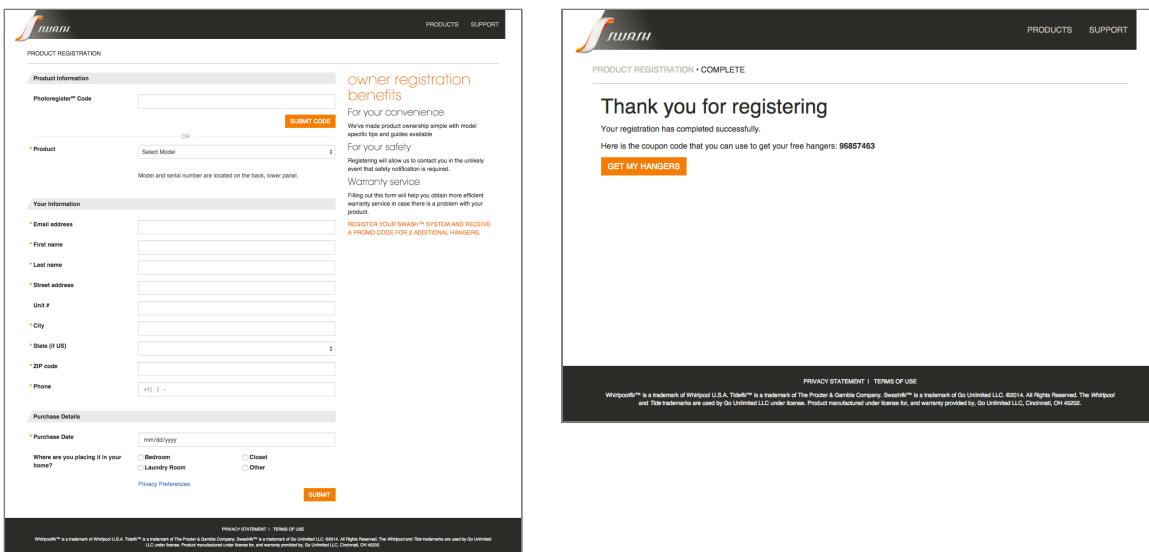

Pickup Locations: Contractors can add and manage preferred pickup locations. A screenshot shows the "Add Preferred Pickup Location" page, where users can search by zip code or filter service locations.

Coverage Area: Contractors can manage the counties they serve. A screenshot shows the "Coverage Area" page, where users can add new coverage areas and view existing ones.
